CIRRUS

The Art of Rejuvenation

Featuring patented True Shiatsu Action and patented Wave Arrays, Cirrus provides a more life-like and therapeutic massage than any other massage chair you can own. True Shiatsu Action simulates the finger structure and organic movements of a massage therapist, while the Wave Arrays—found in Cirrus' arms and legs—make Cirrus the first and only massage chair to feature mechanical massage units for the arms and calves. Complete with real black walnut trim and soothing heat, Cirrus is the ultimate combination of therapeutic massage and luxury design.
