

OHCO™

Massage Redefined™

M.8 & M.8LE

The Magic of OHCO

A pleasant interjection. A subtle exclamation.
A word that demonstrates a peaceful emotion.

OHCO is a feeling created from the wisdom of a shiatsu master, the talent of a visionary designer and unprecedented massage technology. These elements give OHCO the ability to transform the ancient art of massage into a luxuriously timeless experience.

With thoughtful direction, the OHCO M.8 and M.8LE transport you to a state of deep relaxation and renewal. Calculated, precise movements mirror the hands of a shiatsu master—melting tension and awakening your senses.

Our boldest expression of the M-Series is the M.8LE—crafted from top-grain genuine leather and sumptuous Ultrasuede®. Our Limited Edition is a work of art limited to 2,000 units worldwide, and each one accompanied by a numbered and signed Certificate of Authenticity.

Envelop yourself in complete serenity as the unexpected becomes a part of your everyday.

OHCO

Stillness Amidst Motion

Known for his bullet trains that eclipse 200mph as well as designing the most exclusive Ferrari ever sold, Ken Okuyama has built a reputation for speed. Yet to fully understand speed, one must also understand stillness, and it is in stillness where Ken finds renewal.

The M.8 and M.8LE contain tranquility in the midst of dynamic engineering; mirroring his interior designs in the renowned Shinkansen trains. His synergistic approach balances speed and stillness, sophistication and technology, and in the all-new M.8 and M.8LE, beauty within and without.

**“You have to design the whole environment.
Without that the story doesn’t carry through.”**

Ken Okuyama

A handwritten signature in black ink, appearing to read 'Okuyama Ken', written in a cursive style.

Put Yourself in the Hands of a Master

Renowned shiatsu master, Okabayashi sensei begins his therapeutic sessions with a single, simple touch. Without clients saying a word, he discerns their emotions, feels the muscle stiffness and begins to bring the body back into harmony. It is this intuition that Okabayashi sensei brings to the OHCO symphony of movement. Under his direction, OHCO engineers have created an unsurpassed orchestration of touch that brings your whole person into harmony, unleashes the body's self-healing power and rejuvenates both mind and muscle.

“Creating equal, supportive pressure along the energy meridians of the body releases one into a state of emotional relaxation and brings harmony to both the body and mind.”

Akira Okabayashi

The Ethos of Japanese Engineering

In Japan, a standard of excellence is not a fixed point, but a tireless search for improvement. It is an attention to detail, a spirit that never stops striving and the reason that the M.8 and M.8LE have been created by a Japanese design master and choreographed by a Japanese shiatsu master.

EXCEPTIONAL FEATURES

Rear Swing Doors

Move into and out of your massage chair with ease and grace. Left and right Rear Swing Doors allow for simple ingress and egress. The first and only of their kind, our innovative doors make getting in and out of your chair easy and relaxing.

DeltaWave™

At the core of the M.8 and M.8LE lies the technology to transform your entire state of being. Our proprietary DeltaWave engine is designed to deliver an intuitive and life-like massage. In addition to basic movements, the DeltaWave 4D engine uses advanced massage algorithms to mimic the hand movements of a massage therapist.

Knead and Stretch Headrest

Experience gentle neck traction as the headrest lightly relieves pressure on your cervical spine with air-driven neck stretching. Mechanical rollers then work and knead the muscles in the back of your neck. Find relief and help restore neck mobility with every session.

MaxTrack™

Luxury is not about compromise. The proprietary MaxTrack is the perfect marriage of our DeltaWave mechanism design with a uniquely shaped massage track. Seamlessly move from upright, to zero gravity, to lie-flat and even inversion—all without missing a beat.

TheraElliptical™ Calf Kneading

Let tension melt as complex movements mimic the hands of a shiatsu master, gently compressing and kneading your calves. This powerful and soothing capability enhances circulation, leaving your lower body refreshed and renewed.

Arms of Embrace

With twelve independently-controlled air cells creating millions of possible sequences, the M.8 and M.8LE precisely addresses pressure points along the shoulders, arms and hands. Be enveloped in the arms of a master as the wisdom of Okabayashi sensei appears in each soothing massage sequence.

ENVIRONMENTAL FEATURES

Air Ionizer and White Noise Generator

Clear the air and clear your mind. Enjoy each clean breath you take as the Air Ionizer removes dust, dander, spores and other irritants. Located in the headrest, a small fan moves ionized air through the vent port; echoing the sound of faint ocean waves.

Aromatherapy

Add a few drops of your favorite essential oil to the headrest diffuser to bring an aromatic dimension to your escape. As you settle in and breathe, your sensory receptors immediately begin to send relaxing signals to your subconscious; elevating your entire OHCO experience.

M-Sense Light Pool

The M.8 and M.8LE acknowledge your approach. Upon your arrival, M-Sense Light Pool bathes the floor around your chair in a soft glow, illuminating the path to your OHCO experience.

Bluetooth Audio Immersion

Heighten your experience by connecting your smart device to play relaxing sounds, music or your favorite guided meditation.
